Offer 383361

GUOWEI EG 130M from 2026

Loader + Unloader

Offer Details

Offer Number	383361
Brand	GUOWEI
Model	EG 130M
Manufacturer	GUOWEI
Condition	New
Year	2026
Incoterm	Free On Board
Cylinders Condition	
Under Power	Yes
Still in production	Yes
Test possible	Yes
Complete and in working condition	Yes
Availability	Upon agreement
Counter	
Machine number	

Description	The Intelligent Automatic Paper Unloading System is designed to automate the handling of paper stacks after the cutting process, delivering significant improvements in productivity, accuracy, and workplace efficiency. Integrated directly with the cutting line, the system automatically identifies stack dimensions and position, performs precise centering, and manages the complete unloading process without manual intervention. Paper piles are transferred smoothly and accurately from the guillotine to the collection pallet, ensuring perfect stack alignment and consistent handling throughout the production cycle. By eliminating heavy manual lifting and repetitive handling operations, the system can reduce operator workload by up to 50%, increase labor efficiency by 50%, and improve overall production efficiency by up to 200%. The result is a safer working environment, lower operating costs, and faster job turnaround. The machine features a fully integrated touchscreen control system with intelligent automation functions, providing simple operation and complete process control. Premium components are used throughout the system, including imported linear guide rails, precision ball screws, advanced PLC controls, and high-quality pneumatic systems to ensure maximum reliability, accuracy, and long-term performance. Manufactured in accordance with European CE standards, the system incorporates internationally recognized electrical and automation components from leading suppliers, delivering exceptional durability and dependable operation in demanding industrial environments. Ideal for commercial printing plants, packaging manufacturers, and paper converting operations, the Intelligent Automatic Paper Unloading System provides a highly efficient solution for automating paper handling, improving workflow efficiency, and supporting modern high-volume production requirements.

Technical details

Max.unloading paper size	90x120 cm
Min.unloading paper specification	10x40 cm
Max.stack height of paper	16.5 cm
Min.stack height of paper	4 cm
Max.table height from the ground	140 cm
Min.table height from the ground	20 cm
Max.Loading	200 Kg
Total machine power	3 Kw
Paper cutter adaper specification	92/115/130/137
Overall dimension	310x190x215 cm
Machine net weight	1200 Kg

PRICE: Upon request
