

Offer 383369

GUOWEI LG 1500-5 from 2026

Loader + Unloader

Offer Details

Offer Number	383369
Brand	GUOWEI
Model	LG 1500-5
Manufacturer	GUOWEI
Condition	New
Year	2026
Incoterm	Free On Board
Cylinders Condition	
Under Power	Yes
Still in production	Yes
Test possible	Yes
Complete and in working condition	Yes
Availability	Immediately
Counter	
Machine number	
Description	The Pile Lifter is an essential auxiliary system designed to improve paper handling efficiency in cutting operations. It can be used as a standalone unit alongside a paper cutter or integrated into a complete cutting line together with other paper handling equipment. The machine automatically raises and lowers the paper pile, keeping it at the pre-selected working height by means of an infrared photoelectric control system. This allows operators to handle paper stacks more easily, reduces repetitive lifting and lowering operations, and improves overall cutting workflow efficiency. By maintaining the pile at the ideal ergonomic height, the system reduces operator fatigue, speeds up paper feeding, and enables the full productivity potential of program-controlled paper cutters. It is particularly useful in high-volume printing, packaging, and paper converting environments where efficient material handling is essential. The machine is equipped with a high-quality hydraulic system, including Italian-made hydraulic components such as the oil pump, solenoid valve, and safety valve, ensuring smooth lifting, stable operation, and long-term reliability. Manufactured in compliance with CE standards, the Pile Lifter provides a safe, efficient, and reliable solution for lifting, lowering, and positioning paper stacks in modern cutting workflows.

Technical details

Max.Pallet size	90x125 cm
Max.Paper size	88x122 cm
Max.Lifter height	82 cm
Max.Loading	1.000 Kg
Power	2.2 Kw
Net weight	1000 Kg
Paper cutter adaper specification	130/115/137
Overall dimension	170x155x185 cm

PRICE: Upon request
