Complete and in working condition	Yes
Availability	
Counter	
Machine number	
Description	The Heidelberg MK Diana Eye 55 is a pack printing and effect enhancement defect inspection system that combines unique LED lighting technology and a cutting-edge 4K or 8K camera system. It checks the quality of carton blanks at a speed of up to 300 m/min. The system can inspect for defects such as hickeys, scratches, streaks, color variation, register deviations, substrate, hologram, and varnish defects. The Masterwork Diana Eye 42/55 provides real 100% control of the entire image of every single folding carton, with a competitive production speed of up to 120,000 ct/h. The system features a patented light dome with adjustable light angles, detects metalized substrates, hot foil, and hologram applications without reflections, and has an adjustable light intensity.

Technical details

Max sheet size	550x500 mm
Min sheet size	70x70 mm
max speed	300 m/min.
Material processing	90
