Year:	2011
Incoterm:	Load On Truck
Cylinders Condition:	
Under Power:	No
Still in production:	No
Test possible:	No
Complete and in working condition:	Yes
Availability:	09-2023
Counter:	
Machine number:	
Description:	<p>POLAR Stack Lift LW 2000-6<>It provides for ergonomic working at a user-friendly working height by automatic lifting and lowering of palletized cutting material.</p> <p><>Customer Benefits<>• Increases the efficiency of the cutting machine by up to 10%, because working height remains constant throughout loading and unloading procedures<>• Lifting heavy loads is reduced to a minimum<>• Operator's productivity curve remains constant<>• Substantial reduction of occupational diseases<>The POLAR Stack Lift LW 2000-6 lift is predominantly employed for handling offset class 100 × 140 56". Since the material to be cut is lifted automatically, the operator loads the material into the jogger or directly into the cutting machine at an ergonomic height. The lift can also be used for stacking the material. In this case the lift is lowered semi-automatically. This means that the procedure is started manually, but stopped automatically by the light barrier</p>

Technical details

Max size	1050 × 1450 mm
Max load	2000 kg
