Complete and in working condition	No
Availability	
Counter	
Machine number	
Description	Dryer: UV (4 cassettes) IR (1 cassette) 3 screen printing units 1 hot foil stamping/embossing unit 1 screen printing unit 1 flat die cutting unit Final cutting unit in tracks They generally do not print formats larger than 300 mm x 300 mm. The frame to be used is 600 x 600 external with a 35 mm thick frame (the machine can then be modified for other frames if necessary). The speed varies from 1500 to 3500 strokes per hour (I don't think we've ever reached the 5000 indicated in the technical data sheet, mainly to maintain print quality). The machine was manufactured in 2002, while the hot gold unit was completely replaced in 2014.

Technical details

Max. Web width:	350 mm
Max.Print width	340x340 mm
Unwider(s)	900 mm
