

Offer 383360
**TPH X-PRESS FLEX WIDE WEB from
2026**
Flexo Printing Press

Offer Details

Offer Number :	383360
Brand:	TPH
Model:	X-Press Flex Wide Web
Manufacturer	TPH
Condition:	New
Year:	2026
Incoterm:	
Cylinders Condition:	
Under Power:	Yes
Still in production:	Yes
Test possible:	Yes
Complete and in working condition:	Yes
Availability:	Upon agreement
Counter:	
Machine number:	
Description:	<p>Engineered for high-volume label and packaging production, the Orient X-Press Flex Wide is a state-of-the-art wide web flexographic press designed to deliver exceptional print quality, productivity, and operational efficiency across a broad range of applications, including FMCG, food, pharmaceutical, medical, and consumer packaging. Support in web widths from 1,000 to 1,320 mm and production speeds of up to 200 m/min, the press is built to meet the demands of modern converters seeking maximum flexibility and profitability. At the core of the machine is Orient's proprietary X-Gear technology and custom-engineered print unit design, providing outstanding registration accuracy, minimal vibration, superior web handling, and consistently high print quality, even on the most demanding substrates. The advanced cylinder and gearbox integration system delivers exceptional precision and stability throughout the production run. The press can be equipped with advanced sleeve technology, dramatically reducing setup and changeover times while lowering substrate waste by up to</p>

50%. This allows converters to achieve faster job turnaround, improved production efficiency, and a quicker return on investment.<>Compatible with UV LED, water-based and solvent-based inks, and supporting UV LED, infrared, and hot-air curing systems, the X-Press Flex Wide provides complete flexibility for a wide variety of packaging applications and sustainability requirements. Its ability to run environmentally friendly water-based and low-impact ink systems makes it an ideal choice for converters looking to reduce their environmental footprint while maintaining the highest production standards.<>Designed for versatility, reliability, and long-term performance, the Orient X-Press Flex Wide is a future-ready flexographic platform capable of handling everything from paper and board to films, flexible packaging materials, and specialty substrates, helping converters expand their capabilities and remain competitive in a rapidly evolving packaging market.

Technical details

Max Web Width	1,000 – 1,320 mm
Max Printing Width	1,270 mm
Printing Repeat	350 – 850 mm
Max Unwinding Diameter	1,050 mm
Max Rewinding Diameter	1,050 mm
Driving Mode	Full Servo
Max Mechanical Speed	Up to 200 m/min (higher speeds configurable depending on specification and application – please ask your sales rep)
Ink Curing	IR · Hot Air · UV / LED (application)
Applicable Ink	UV LED · Water
Substrate	Paper, film, board (wide gamut – contact sales for specific application)
Substrate Thickness	12 – 350 µm
Registration	Auto
Pre-Registration	Available
Second Pass	Available
Chill Water	20 – 22 °C
Wastage Reduction	Up to 50%
Typical Sectors	FMCG, Food, Medical, Pharma

PRICE: Upon request
