Machine number	
Description	APPLICATION: It is used for die cutting and creasing various types of paper, paperboard, corrugated board, label, and plastic sheets, with single pressing and cutting, continuous pressing and cutting, and an adjustable time delay during the continuation. The operation system is well-designed and easy to use, and the clamp for pressing can be opened at a wide angle. It is equipped with a central lubrication system and automatic oil pumps. The body of the machine is made of high-strength cast iron. It is also equipped with a large flywheel, which can ensure high pressure for cutting. Suitable materials: Paper and paperboard - Corrugated board - Sticky label (kiss cut) - Plastic sheets, e.g., PVC and PP sheets (need to add the optional heating plate) Standard equipment

Technical details

Max. size	2000 x 1400 mm
Speed (strokes/min)	13±2
Max.Rule Length	□65 m
Motor Power	15 Kw

Machine weight approx.	14 Ton
Dimension	3200×2400×2600 mm
HS Code	84439959 HS Codes Classification of Other
transport by truck	1 truck
transport by sea	1 x 20 ft container

PRICE: Upon request
